Index of Subjects

Acid phosphatase, liver necrosis 833
Actinomycete, oral plaque formation 1157
Allergic encephalomyelitis, hyperacute 61; 209
Alternating current—effect on muscle 1
Alveolar lining layer, fetal lamb 877
Amyloid formation, spleen explants 1079
Amyloidosis—casein injection 159
Anaphylactic shock—liver disease 173
Anti-kidney serum nephritis—rat 953
Aorta, dog—medial necrosis 695
Aortic medial calcification—brain lesions 271
Arterial lesions—serum nephritis, rat 953
Arterial plaques—hemorrhage ... 447
Arteriolar hyalinosis—hypertension 457
Arteriolarsclerosis—hyperplastic 19
Atherosclerosis, experimental—dog 241
Atrophy, muscle, denervation .. 315
Auer hepatitis 549
Autolytic system—muscle atrophy 315
Auto-phagocytosis—regenerating liver 783
Autoradiography—amyloid, spleen 1079
Bacillary dysentery—experimental 1011
Bacteremia, coliform—guinea pig 629
Basophilia—renal calcifications .. 487
Body wall—laser irradiation 643
Bone—effect of meat diet 435
***Bordetella bronchiseptica*—nasal epithelium** 601
Brain—edema, silver nitrate implantation 537
Brain lesions—aortic calcification. 271
Brainstem hemorrhages—experimental 525
Calcification
aortic media 271
renal, basophilia 487
Canine atherosclerosis—experimental 241
Capacitor discharge—effect on muscle 1
Casein hydrolysate—amyloidosis. 159
Celiac disease—jejunal biopsy ... 765
Cell division—liver cell 783
Cell renewal—renal tubular necrosis 851
Cell wall, streptococcal 613
Central "core" disease—skeletal muscle 503
Cerebral edema—silver nitrate implantation 537
Chlorpromazine—newborn, liver . 803
Cholesterol levels, serum—brain lesions 271
Chronic liver disease—rat 173
Ciliated epithelium—Bordetella rhinitis 601
Cirrhosis, experimental—reversible and irreversible 353
Coliform bacteremia—guinea pig 629
Colon—melanosis 965
Congenital heart disease—organ abnormalities 905
Connective tissue, dermal—streptococcal cell wall 613
microfibrils 1113
"Core" disease—skeletal muscle . 503
Corneal stromal reactions—hyperlipemic serum 51
Cortisone—reactions to streptococcal cell wall 613
Crystalline inclusions—ultrastructure 587
Degranulation, leukocytes—streptolysin 419
Dermal connective tissue—streptococcal cell wall 613
Delipidized serum—corneal reactions 51
Denervation muscle atrophy ... 315
Dichromate renal tubular necrosis 851
Dithizone—prostatic zinc 325
Dog
aorta—medial necrosis 695
experimental atherosclerosis 241
intranuclear inclusions, liver 587
Dysentery, bacillary experimental 1011
Edema, cerebral—silver nitrate implantation 537

Electron microscopy
allergic encephalomyelitis 209
autoradiography 1079
bacillary dysentery 1011
cerebral edema 537
"core" disease, muscle 503
experimental atherosclerosis 241
fetal lung, lamb 877
fibrin-clearing 403
intranuclear inclusions 587
liver 917
——chlorpromazine effect 803
——orotic acid 125
——runt disease 371
lupus nephritis 677
nasal epithelium 601
reovirus encephalitis 223
reovirus hepatitis 565
tuberculin sensitivity 723
Encephalitis, reovirus—newborn mice 223
Encephalomyelitis—hyperacute, allergic 61; 209
Enteritis, guinea pig 629
Enterosiderosis pigments—in melanosis 965
Enzymes
hepatocellular 183
liver, chlorpromazine effect 803
Experimental atherosclerosis —canine 241
Experimental bacillary dysentery 1011
Experimental cirrhosis—reversible and irreversible 353
Experimental hypertension—vascular changes 457
Explant, spleen—amyloid formation 1079
Fatty change, liver—orotic acid . 125
Fetal lamb, lung—electron microscopy 877
Fibrils—extracellular 1113
Fibrin-clearing mechanism phagocytic 403
Fibrin precipitation—pulmonary arteries 665
Fibrinoid change—arterioles 457
Fine fibrils—extracellular 1113
Gelatin—amyloidosis 159
Gliomas—intranuclear inclusions . 147
Glucose-6-phosphatase—liver necrosis 833
Glutamic dehydrogenase—liver necrosis 833
Glycogen—liver, chlorpromazine effect 803
Gnotobiotic rats—gingival plaque formation 1157
Granules, lipofuscin-like 287
Guinea pig
penicillin enteritis 629
Heart disease—congenital organ abnormalities 905
Hemochromatosis hepatic lesion 89
Hemorrhage—arterial plaques ... 447
Hemorrhages, brainstem experimental 525
Hepatic lesions
Auer hepatitis 549
hemochromatosis 89
Hepatitis
Auer—mouse 549
murine, reovirus 565
Hepatocellular enzymes—histochemistry 183
Hepatocellular injury—thioacetamide 917
Histamine—vascular deposits, inflammation 1045
Histochemistry
liver, runt disease 371
mouse liver necrosis 183
renal tubular renewal 851
Histocompatibility locus—mouse 713
Hyalinosis, arteriolar—hypertension 457
Hyperacute allergic encephalomyelitis 209
Hyperlipemic serum—corneal reactions 51
Hyperplastic arteriolarsclerosis 19
Hypertension
experimental 19
vascular changes 457
Hypertensive pulmonary vascular disease 665
Immune complexes—Auer hepatitis 549
Immunohistologic studies—myosin containing tumors 1139
Implantation, silver nitrate—brain 537
Inclusions
gliomas 147
intranuclear crystalline 587
osmiophilic—fetal lung 877
Infarction—aorta, dog 695
Inflammation—vascular deposits . 1045
Intestinal mucosa—bacillary dysentery 1011
Intramural vascular deposits—inflammation 1045
Intranuclear crystalline inclusions—ultrastructure ... 587
Intranuclear inclusions—gliomas 147

Iron storage mechanism—
enterosiderosis 965
Irradiation
laser 643
liver 339
Irreversible changes—
experimental cirrhosis 353
Jejunal biopsy, sprue 765
Juxtaglomerular cells—granules. 287
Kidney
anti-kidney serum nephritis 953
lipofuscin-like granules 287
tubular necrosis, renewal 851
Lamb, lung—electron microscopy. 877
Laser irradiation—mouse 643
Leukocytes, degranulation—
streptolysin 419
Life span—injected spleen cells,
mice 713
Lipofuscin-like granules—
smooth muscle 287
Liver
Auer hepatitis 549
hemochromatosis 89
intranuclear crystalline inclusions. 587
necrosis, *in vitro* 833
regeneration 783
runt disease 371
"target" irradiation 339
Liver disease—chronic, rat 173
Liver enzymes—chlorpromazine
effect 803
Liver injury, thioacetamide ... 917
Liver necrosis—mouse 183
Lung
fetal lamb—electron microscopy . 877
Lupus nephritis—mouse 677
Lymphoma-incidence, mice—
injected spleen cells 713
Meat diet—effect on bone 435
Medial necrosis—aorta, dog 695
Melanosis, intestinal 965
6-Mercaptopurine—reactions to
streptococcal cell wall 613
Microfibrils—extracellular 1113
Mouse
Auer hepatitis 549
laser irradiation 643
liver necrosis 183
lupus nephritis 677
meat diet 435
newborn, chlorpromazine effect .. 803
——reovirus encephalitis 223
spleen cell injections 713
Murine hepatitis, reovirus 565
Muscle
effect, electrical current 1
"core" disease 503
Muscle atrophy—denervation ... 315
Myosin containing tumors 1139
NAB/BL-NZW mouse—lupus
nephritis 677
NAD-pyrophosphorylase—
liver necrosis 833
Nasal ciliated epithelium—
Bordetella rhinitis 601
Necrosis
liver, *in vitro* 833
medial—aorta, dog 695
mouse liver 183
renal tubular, cell renewal 851
Nephritis
anti-kidney serum—rat 953
lupus—mouse 677
Newborn mice—reovirus
encephalitis 223
Nitrogen mustard—reactions to
streptococcal cell wall 613
Organ abnormalities—congenital
heart disease 905
Orotic acid-induced fatty
change—liver 125
Osmiophilic inclusions—fetal
lung 877
Oxine—prostatic zinc 325
Penicillin enteritis—guinea pig . 629
Periodontal abnormality—
actinomycete 1157
Phagocytic fibrin-clearing—
mechanism 403
Phlebotomy—hemochromatosis .. 89
Phosphatase, acid—liver necrosis. 833
Pig, nasal epithelium 601
Pigment, enterosiderosis 965
Plaques, arterial—hemorrhage .. 447
Plaque formation, gingival 1157
Prenatal chlorpromazine—
newborn, liver 803
Prostate, dorsolateral—zinc 325
Pseudo-iron deficient state 89
Pseudomelanosis—intestinal 965
Pulmonary vascular disease—
hypertensive 665
Pyrophosphorylase, NAD-,
liver necrosis 833
Rabbit
aortic medial calcification 271
corneal reactions 51
resistance to streptococcal cell
wall 613
Rat
anti-kidney serum nephritis 953
gnotobiotic, gingival plaque
formation 1157
liver disease 173
prostate—zinc 325
Regeneration, liver 783
Renal calcification, basophilia . 487
Renal tubular necrosis—
dichromate induced 851

Reovirus encephalitis—newborn mice 223
Reovirus—murine hepatitis 565
Respiratory distress—fetal lamb. 877
Reversible changes—experimental cirrhosis 353
Rhinitis, *Bordetella bronchiseptica* 601
Runt disease—liver 371
Secondary brainstem hemorrhages—experimental . 525
Sensitivity, tuberculin 723
Serum cholesterol levels—brain lesions 271
Serum nephritis—rat 953
Silver nitrate implantation—cerebral edema 537
Skeletal muscle
"core" disease 503
effect electrical current 1
Skin
effect electrical current 1
laser irradiation 643
Smooth muscle—granules 287
Spleen cell injections—lymphoma-incidence 713
Spleen explant—amyloid formation 1079
Sprue, tropical—jejunal biopsy .. 765
Streptococcal cell wall—dermal connective tissue 613
Streptolysin—degranulation, leukocytes 419
Succinic dehydrogenase—liver necrosis 833
Succinoxidase—liver necrosis 833
"Target" irradiation—liver 339
Thioacetamide—liver injury 917
Tissue culture—gliomas 147
Tropical sprue—jejunal biopsy .. 765
Tuberculin sensitivity 723
Tubular necrosis—renal, cell renewal 851
Tumors, myosin containing ... 1139
Uricase—liver necrosis 833
Vascular deposits—inflammation 1045
Vascular disease—pulmonary ... 665
Vascular lesions—serum nephritis, rat 953
Vascular smooth muscle—granules 287
Virus assay—reovirus encephalitis. 223
Zinc—prostate gland 325

Index of Authors

Abe, T. See Smith, Beeuwkes, Tomiewicz, Abe and Lown. (July) 1
Adams, W. R. See Jatlow, Adams and Handschumacher. (July) 125
Arnold, N. J. See Ashworth, Werner, Glass and Arnold. (December) 917
Ashworth, C. T.; Werner, D. J.; Glass, M. D., and Arnold, N. J. Spectrum of fine structural changes in hepatocellular injury due to thioacetamide. (December) 917
Baines, A. W. Cell renewal following dichromate induced renal tubular necrosis. An enzyme histochemical study. (November) 851
Balk, S. D. See Prose, Lee and Balk. (September) 403
Battifora, H. See Eisenstein, Battifora and Ellis. (September) 487
Becker, F. F., and Lane, B. P. Regeneration of the mammalian liver. I. Autophagocytosis during dedifferentiation of the liver cell in preparation for cell division. (November) 783
Beeuwkes, R. See Smith, Beeuwkes, Tomkiewicz, Abe and Lown. (July) 1
Bernick, S. See de Mignard, Patek and Bernick. (September) 339
Biava, C., and West, M. Lipofuscin-like granules in vascular smooth muscle and juxtaglomerular cells of human kidneys. (August) 287
Bischoff, M. E. See Richter, Stein, Rdzok, Moize and Bischoff. (October) 587
Block, M.; Moore, G.; Wasi, P., and Haiby, G. Histogenesis of the hepatic lesion in primary hemochromatosis: With consideration of the pseudo-iron deficient state produced by phlebotomies. (July) 89
Brown, A. E. See Friedman, Byers and Brown. (September) 447
Byers, S. O. See Friedman, Byers and Brown. (September) 447
Channing, A. A.; Kasuga, T.; Horowitz, R. E.; Dubois, E. L., and Demopoulos, H. B. An ultrastructural study of spontaneous lupus nephritis in the NZB/BL-NZW mouse. (October) 677
Churg, J., and Sakaguchi, H. Vascular lesions in anti-kidney serum nephritis of the rat. (December) 953
Cohen, A.; Gross, E., and Shirahama, T. The light and electron microscopic autoradiographic demonstration of local amyloid formation in spleen explants. (December) 1079
Cook, C. D. See Kikkawa, Motoyama and Cook. (November) 877
Cotran, R. S.; La Gattuta, M. L., and Majno, G. Studies on inflammation. Fate of intramural vascular deposits induced by histamine. (December) 1045
Cronin, A. P. See Sternberg, Cronin and Philips. (August) 325
De Mignard, V. A.; Patek, P. R., and Bernick, S. Response of the liver to "target" irradiation. (September) 339
Demopoulos, H. B. See Channing, Kasuga, Horowitz, Dubois and Demopoulos. (October) 677
Dubois, E. L. See Channing, Kasuga, Horowitz, Dubois and Demopoulos. (October) 677
Duncan, J. R., and Ramsey, F. K. Fine structural changes in the porcine nasal ciliated epithelial cell produced by *Bordetella bronchiseptica* rhinitis. (October) . 601
Eisenstein, R.; Battifora, H., and Ellis, H. The basophilia of certain renal calcifications. (September) 487
Ellis, H. See Eisenstein, Battifora and Ellis. (September) 487
Essner, E. See Schlesinger and Essner. (September) 371
Evangelista, I. See Gonatas, Perez, Shy and Evangelista. (September) 503
Farrar, W. E., Jr., and Kent, T. H. Enteritis and coliform bacteremia in guinea pigs given penicillin. (October) 629
Fennell, R. H., Jr. Chronic liver disease induced in rats by repeated anaphylactic shock. (August) 173
Fine, S. See Laor, Simpson, Klein and Fine. (October) 643
Fitzgerald, R. J. See Jordan, Fitzgerald and Stanley. (December) 1157
Formal, S. B. See Takeuchi, Sprinz, LaBrec and Formal. (December) 1011

Friedman, M.; Byers, S. O., and Brown, A. E. Induction of hemorrhages in pre-existing arterial plaques. (September) 447
Froelich, J. S., and Lapham, L. W. Tissue culture studies of gliomas. I. Intranuclear inclusions in glial cells. (July) 147
Geer, J. C. Fine structure of canine experimental atherosclerosis. (August) 241
———. See Lillie and Geer. (December) 965
Glass, M. D. See Ashworth, Werner, Glass and Arnold. (December) 917
Goldblatt, P. J.; Trump, B. F., and Stowell, R. E. Studies on necrosis of mouse liver *in vitro*. Alterations in some histochemically demonstrable hepatocellular enzymes. (August) 183
———. See Griffin, Waravdekar, Trump, Goldblatt and Stowell. (November) 833
Gonatas, N. K.; Perez, M. C.; Shy, G. M., and Evangelista, I. Central "core" disease of skeletal muscle. Ultrastructural and cytochemical observations in two cases. (September) 503
Griffin, C. C.; Waravdekar, V. S.; Trump, B. F.; Goldblatt, P. J., and Stowell, R. E. Studies on necrosis of mouse liver *in vitro*. Alterations in activities of succinoxidase, succinic dehydrogenase, glutamic dehydrogenase, acid phosphatase, uricase, glucose-6-phosphatase and NAD-pyrophosphorylase. (November) 833
Haust, M. D. Fine fibrils of extracellular space (microfibrils). Their structure and role in connective tissue organization. (December) 1113
Handschumacher, R. E. See Jatlow, Adams and Handschumacher. (July) 125
Haiby, G. See Block, Moore, Wasi and Haiby. (July) 89
Higginson, J. See Quinn and Higginson. (September) 353
Hildemann, W. H. See Walford and Hildemann. (November) 713
Hiramoto, R. See Johnson, Jurand and Hiramoto. (December) 1139
Hirano, A.; Zimmerman, H. M., and Levine, S. The fine structure of cerebral fluid accumulation. IX. Edema following silver nitrate implantation. (October) . 537
———. See Levine, Hirano and Zimmerman. (August) 209
Horowitz, R. E. See Channing, Kasuga, Horowitz, Dubois and Demopoulos. (October) 677
Gross, E. See Cohen, Gross and Shirahama. (December) 1079
Janigan, D. T. Experimental amyloidosis. Studies with a modified casein method, casein hydrolysate and gelatin. (July) 159
Jatlow, P.; Adams, W. R., and Handschumacher R. E. Pathogenesis of orotic acid-induced fatty change in the rat liver. Light and electron microscopic studies. (July) 125
Jenson, A. B.; Rabin, E. R.; Phillips, C. A., and Melnick, J. L. Reovirus encephalitis in newborn mice. An electron microscopic and virus assay study. (August) 223
Johnson, W.; Jurand, J., and Hiramoto, R. Immunohistologic studies of tumors containing myosin. (December) 1139
Jordan, H. V.; Fitzgerald, R. J., and Stanley, H. R. Plaque formation and periodontal pathology in gnotobiotic rats infected with an oral actinomycete. (December) 1157
Jurand, J. See Johnson, Jurand and Hiramoto. (December) 1139
Kapanci, Y. Hypertensive pulmonary vascular disease. Endothelial hyperplasia and its relations to intravascular fibrin precipitation. (October) 665
Kasuga, T. See Channing, Kasuga, Horowitz, Dubois and Demopoulos. (October) 677
Kent, T. H. See Farrar and Kent. (October) 629
Kikkawa, Y.; Motoyama, E. K., and Cook, C. D. The ultrastructure of the lungs of lambs. The relation of osmiophilic inclusions and alveolar lining layer to fetal maturation and experimentally produced respiratory distress. (November) . 877
Klein, E. See Laor, Simpson, Klein and Fine. (October) 643
Klintworth, G. K. The pathogenesis of secondary brainstem hemorrhages as studied in an experimental model. (October) 525
Klipstein, F. A. See Schenk, Samloff and Klipstein. (November) 765
Kohn, R. R. Denervation muscle atrophy. An autolytic system *in vitro*. (August) . 315
LaBrec, E. H. See Takeuchi, Sprinz, LaBrec and Formal. (December) 1011
La Gattuta, M. L. See Cotran, La Gattuta and Majno. (December) 1045

Lane, B. P. See Becker and Lane. (November) 783
Laor, Y.; Simpson, C. L.; Klein, E., and Fine, S. The pathology of laser irradiation of the skin and body wall of the mouse. (October) 643
